

Watoga State Park

West Virginia's largest state park!

Our summer interpretative activities will resume again in 2017. It was a pleasure to work at Watoga State Park and to meet visitor and guests this summer. Our creek crawls, crafts, story hours and nature based activities are fun to organize and to share.

We hope you enjoyed your visit. I encourage you to get outside and enjoy nature and to visit West Virginia's state parks and forests every chance you get. Visit Watoga when you have an opportunity. It's a wonderful place to refresh year-round.
